

**Motaz Saleh**  
**Partner - PwC**

- Motaz is the Risk Assurance Services Leader in KSA and has over than 20 years of experience serving clients in both public and private sectors across the Middle East region providing them with risk assurance and consulting services.
- Motaz leads large scale projects with cross functional risk assurance professionals and is a subject matter expert in corporate and family governance, internal control and enterprise risk management solutions.
- Motaz's exposure to a variety of organizations in different geographies, industries and complexities has positioned him to develop a unique understanding of the different governance models. Within governance, his area of expertise revolves around performing corporate governance gap analysis assessments, corporate governance framework designs and organizational restructuring at top management level. Additionally, he advised government, listed companies as well as private family businesses how to assess, design and implement effective governance models. Motaz is also involved in various family governance projects as he has worked on the development of their family constitutions.
- Motaz has a double major in accounting and economics, and a certified internal auditor (CIA)
