About GCC BDI

Launched in 2007, GCC BDI is a not-for-profit company that guides board directors of organisations, from family-owned businesses to state-owned and listed companies, to acquire the know-how and tools to reach and sustain effective governance.

GCC BDI is supported by eight leading regional corporations and professional services firms who serve as our strategic partners: First Abu Dhabi Bank, National Bank of Bahrain, SABIC, Saudi Aramco; Allen & Overy; Heidrick & Struggles; McKinsey & Company; and PwC. Whilst GCC BDI is a completely independent company, representatives from these entities are part of our Board of Governors and continue to guide our strategy and development.

We are also supported by the regional regulatory authorities, including the Emirates Security and Commodities Authority, Saudi Arabian Monetary Authority, the Capital Market Authorities of Saudi Arabia, Kuwait and Oman and the Central Bank of Bahrain.

Member Portal and Directory

Members can now stay in touch through a click of a button! The GCC BDI Member Portal, allows members to customise their portal and connect.

Other functions of the Member Portal include accessing the membership e-card, editing profiles, renewing membership, registering for events, receiving notifications and reminders, and many other features.

Independent Director Opportunities

Our mission is to build better director and board capabilities to make a positive impact on the economies and societies of the region. We do this by sharing best board and corporate governance practices, as well as through promoting professional directorship.

We have partnered with organisations across the GCC to support them in filling vacancies on their boards and board committees.

We do this through our Board Opportunities and Director Register services.

Board Opportunities

Through our Board Opportunities service, organisations may advertise their board positions on our website free of charge. Members and Fellows have access to these Board Opportunities as part of their membership benefits. This service is not available to Associate members.

Director Register

Independent directors play a vital role on boards, providing independent and objective views, expertise and experience. GCC BDI has created a Directors' Register allows Members and Fellows to register their CVs for prospective board roles. Those companies who do not wish to advertise, may request a search by GCC BDI. This is a matching service and not a vetting service, nor a recruitment service and terms and conditions apply. This service is not available to Associate members.

Mentorship Programme

The GCC BDI Mentorship Programme is designed to encourage a learning culture, where members learn from more experienced board directors, this enables them to take ownership of their personal and professional development and improve their leadership skills.

Mentoring is a great way to grow professionally and personally and is quickly gaining recognition as one of the fastest ways to develop talent and accelerate leadership potential. As a mentor, you gain new perspectives and fresh ideas giving you insights to generational trends as well as being able to share your board experience.

For Mentees, the GCC BDI Mentorship Programme will:

- Help clarify your career goals and course of direction. Mentors have a realistic understanding of their respective fields. A conversation with your Mentor can inspire you, help you narrow your focus and maximise your potential.
- Give you tailored guidance. Discussions with your Mentor will help show you perspectives other than your own. Personal guidance given to you will allow you to grow, and open you up to new ideas and paths.
- Provide you with feedback that allows you to self-reflect, increasing your confidence, self-growth and performance.

Mentors selected for this programme are the highest calibre of professionals, each with extensive boardroom experience, who demonstrate honesty, integrity, respect and responsibility for stewardship. They understand how to support individuals in achieving professional goals.

The duration of the programme is six months. The Mentor and Mentee would be expected to meet a minimum of two hours every month.

Individuals eligible to participate in the Mentorship Programme must be either a GCC BDI Member or a Fellow.

Study Trips

Study trips are intended to enable our members to explore new business opportunities and to raise awareness of key considerations when entering new markets. They are also opportunities to network with board directors in other countries. Members who sit on boards of subsidiary or joint venture companies in other countries will also benefit from learning more about the local regulatory framework and business environment.

As part of a study trip to a specific country or city, Members and Fellows are invited to take part in a series of activities and meetings. These include educational sessions with industry leaders, cultural experiences, and networking events, organised by GCC BDI with international organisations and institutions, to broaden their understanding and enhance their learning.

GCC BDI members have direct access to global experts who can give more insights into relevant topics, laws and regulations when considering business in that market.

Some study trips may be virtual and organised online. Others may include travel to the relevant destination.

Expected outcomes from each study trip for each attendee include:

- Making new contacts
- Being better informed about doing business in the destination country
- Gaining more insights into, and better understanding of, the culture, business norms, regulations and ecosystems
- Being better equipped to do business in that country or sit on the board of a company registered in that country

This benefit is exclusive to Members and Fellows. There will be a fee for the study trip, in addition to any travel and accommodation expenses, where applicable.
